

I made these slippers for my friend Brenda who is of Norwegian descent.

These slippers are perfect for the Bride with tired feet. The thread color for the ribbon and date can match the Bridesmaid dresses.

I found this wedding design at Annthegran. I reduced the design size with resizing software, then added the date.

When I stitched out the rings and the doves I used metallic threads to give them a little sparkle.

If you want to get even more creative, stitch on some ribbon flowers or some beaded pearls.
